Learning Environment and Academic Research Network (L.E.A.R.N.®) GRADUATE MENTOR SCHOLARS PROGRAM

About:

L.E.A.R.N.® is seeking STEM graduate students to mentor new students in undergraduate research for the spring semester.

Apply:

Apply by Monday, October 16th at 12PM

OUR.UCF.edu/LEARN/GRMapplication

Questions:

- Learn more about L.E.A.R.N.

OUR.UCF.edu/LEARN

- Email questions to
LEARN@ucf.edu

Benefits:

- Gain valuable mentorship experience while building your CV
- Receive assistance with your research project
- Inspire first-year students to take part in research
- Attain a Mentoring Scholarship at the beginning of the spring semester (\$250 for mentoring one student and \$350 for mentoring two students)

Requirements:

- Be a full-time, thesis-track graduate student in a STEM discipline
- Have a research placement under a UCF faculty member
- Attend L.E.A.R.N.™ Mentor Training on November 3rd, 9AM-3PM
- Mentor one or two L.E.A.R.N. student(s) in your research 3 hours per week, for 12 weeks, during the scholarship period (January through mid-April)
- Mentoring occurs during the same 3 hours if paired with two mentees
- Complete weekly evaluation forms and reflections

“

Participating in [the Graduate Mentor Scholars Program] helped me develop my own mentoring

and leadership skills, as well as help strengthen my application for a National Science Foundation fellowship. I feel that this program is mutually beneficial to both the undergraduate students exploring research for the first time and the graduate students guiding them through it.

”

- **Ricardo Lovato**
Graduate Mentor,
2015-2016 and 2016-2017 cohorts,
Electrical Engineering Ph.D. student
