

SAMPLE WEEK IN THE ACCELERATOR ACADEMY PROGRAM

MONDAY

2:30 -
3:20 PM

Organic Chemistry 1 Lecture

What to expect: Attend your Organic Chemistry I (CHM 2210) class. You'll engage with course material directly from your instructor and build the foundation needed for SI sessions, ACE meetings, and tutoring.

TUESDAY

1:00 -
2:50 PM

AAP SI Session (Week 1 includes overview meeting)

What to expect: In-person only. In Week 1, meet program staff, review AAP benefits, and begin your first SI session. In later weeks, join your assigned SI leader for collaborative practice, problem-solving, and exam prep.

WEDNESDAY

1:00 -
1:50 PM

Organic Chemistry 1 Workshop | Optional

What to expect: Attend a focused session (in-person or online) on advanced study strategies, test prep, and time management skills to support success in Organic Chemistry I and future courses.

2:30 -
3:20 PM

Organic Chemistry 1 Lecture

What to expect: Attend your Organic Chemistry I (CHM 2210) class.

THURSDAY

10:00 -
11:00 AM

ACE Appointment

What to expect: Meet one-on-one with your peer academic consultant (in-person or online via Zoom). Together, you'll create or update a study plan, learn new strategies, and get personalized feedback. Book an appointment via MyKnight Star.

12:00 -
1:30 PM

Group Peer Tutoring | Optional

What to expect: Participate in small-group or individual tutoring (in-person or online). This is extra practice with CHM 2210 concepts, giving you the chance to ask questions and review challenging topics with a trained tutor.

FRIDAY

2:30 -
3:20 PM

Organic Chemistry 1 Lecture

What to expect: Attend your Organic Chemistry I (CHM 2210) class.

*Your schedule will look different depending on your Organic Chemistry I class time, SI leader, and ACE appointment times.
