## Student Learning and Academic Success

**KNOW MORE... DO MORE... BE MORE**

Dear Colleagues,

I'm delighted to share that Shalanda Moten, Ed.D., has joined the Division of Student Learning and Academic Success (SLAS) as the Director of the Office of Data and Strategic Projects. She will lead strategic projects and reporting, assessment, and data analysis efforts to support student retention and progression to graduation.

Dr. Moten joins us from Full Sail University, where she served as a Business Solution Analyst. In that role, she was responsible for the research and evaluation of digital community initiatives. Dr. Moten is also a Clinical Supervisor and adjunct professor at UCF.

Dr. Moten holds a doctorate in counseling psychology, and a master's in community counseling from Argosy University. She earned a bachelor's in psychology from Spelman College.

Please join me in welcoming Dr. Moten to SLAS.

Go Knights! Charge on!
